fun fact:

wondergroup wasn't always wondergroup, it started out as scribner, a healthcare marketing agency. that's how it was when i was hired, later the owner realized that healthcare wasn't as glamorous as say, oh, i don't know, kids marketing. and so scribner [healthcare marketing] went away and became wondergroup [kids advertising]. kind of a stretch i know, but i wasn't complaining. i don't think i could have looked at another photo of a colostomy bag or bed sore. don't get me wrong, the experience was great.
